

Flexible | Punctual | Reliable

CD Waste Group

SUSTAINABILITY POLICY

CD Waste consists of three companies involved in various disciplines of the waste management industry. Our activities include the provision of collection and disposal and recycling services, waste auditing, rental of waste equipment, servicing of equipment, importation, distribution and sales of compaction equipment, and total waste management. The Companies are based in London.

At CD Waste we strive to produce better events for a better planet through our continuous commitment to promoting sustainability. Our concern for the environment guides our approach to business where a clear focus on sustainability is integral to our activities and the management of the company. Our goal is to follow and to encourage good sustainability practice, to reduce the environmental impacts of all our activities and to assist our clients and partners in doing the same.

CD Waste Sustainability Policy is founded on the following principles:

- Comply with all relevant environmental legislation, regulations and requirements;
- Be a leader in sustainable development in areas relevant to its business;
- Integrate sustainability considerations into all its business decisions;
- Purchase products with a lower environmental impact;
- Work with its clients to pursue, promote and develop sustainable business outcomes;
- Report on its sustainability performance and achievements;
- Ensure that all staff are fully aware of its Sustainability Policy and are committed to implementing and improving it;
- Ensure that leaders of the firm are involved in implementation of this policy and in reviewing sustainability performance.

CD Waste is committed to growing the business in a responsible manner whilst continually monitoring, managing and improving our operations to ensure that they do not impact adversely on the local environment and communities in which we operate.

Our policy and objectives are publicly available to all interested parties on request.
